HAERES CAPITAL

Performance

Year	Jan	Feb	Mar	Apr	May	Jun	Jul	Aug	Sep	Oct	Nov	Dec	YTD	DD
2013	0.91	-0.45%	12.87	3.76	4.35	3.29	3.87	3.12	1.30				37.59	-0.45
2012									4.73	4.94	3.22	9.90	24.67	N/A

PAST PERFORMANCE IS NOT NECESSARILY INDICATIVE OF FUTURE RESULTS. THE RISK OF LOSS IN TRADING COMMODITY FUTURES, OPTIONS AND FOREIGN EXCHANGE IS SUBSTANTIAL.

Strategy Description/Statistics

HAERES Capital uses a proprietary blend of "wave" and "range" identifying algorithms with a strict set of rules for managing risk and obtaining optimum results without the use of leverage. The idea behind this methodology is to induce a true systematic discretionary system that was developed by an industry expert with nearly 2 decades of institutional trading experience with the acumen of introducing a true systematic discretionary trading system that allows for individuals to truly benefit from the mostly volatile and choppy markets we have seen in recent years.

HAERES Capital looks to recognize organically transpiring patterns which are most present in all economic market conditions. These patterns are composed of numerous waves in which it identifies the supply and demand and its movement towards a balanced price. These patterns can develop over short and long term time frames, whether that is within minutes or weeks, thus being able to foresee where a price is heading and when it could possibly achieve that level.

HAERES Capital's system is traded on the eur/usd, gbp/usd, eur/gbp, eur/jpy, usd/cad, aud/usd and gbp/chf currency pairs. HAERES Capital has imbedded into the strategy a "take profit" level on the positions it builds into any particular currency pair, whereas the "master" take profit level has to be achieved for it to close out position(s). The system will have up to 13 simultaneous trades open at any given time and runs 24 hours a day to ensure that all possible market moves are captured. The risk exposure can be adjusted to investor specifications and risk desire to accommodate each individual specifically.

RISK WARNING

Past performance is not indicative of future results, as returns may vary according to market conditions. Trading in foreign exchange is speculative and may involve the loss of principal; therefore, funds placed under management should be risk capital funds that if lost will not significantly affect one's personal financial well being. This is not a solicitation to invest and you should carefully consider your financial situation as to the suitability to your situation prior to making any investment or entering into any transaction.

IMPORTANT INFORMATION

Nothing contained in this document should be construed as a solicitation or offer, or recommendation, to acquire or dispose of any investment or to engage in any other transaction. Not all products will be available to all investors. The products or services offered by HAERES Capital are only offered to clients in those countries and regions in accordance with applicable laws and regulations. The information provided in herein is not intended for distribution to, or use by, any person or entity in any jurisdiction or country where such distribution or use would be contrary to law or regulation. This document is not directed to any person in any jurisdiction where the publication or availability of our services is prohibited, by reason of that person's nationality, residence or otherwise. Persons under these restrictions must not receive this document.

Some services may not be available to certain investors due to regulatory or other constraints either in the United States of America or elsewhere. You are advised that most services are only available following completion of the HAERES Capital Customer Agreement and/or any other relevant documentation as required by the Company from time to time. Investments in financial instruments (including futures, options, contracts for differences, spot and forward foreign exchange contracts) can fluctuate in value. Accordingly, you should be aware that you might not realize the initial amount invested and indeed may incur additional liabilities as investments in financial instruments may entail above average risk. You must therefore carefully consider whether your financial circumstances permit you to invest. HAERES Capital strongly suggests that you seek the advice of an independent financial advisor in this regard.
